BLEU AZUR DES SOMMETS

This blue does not seek to seduce.

It tells no story.

It sets a state.

A new expression of the **Le Temps en Équilibre** collection, **Bleu Azur des Sommets** is inspired by a precise moment in the Swiss Alpine winter — when light, sky, and silence seem to suspend time. A sky clarified by cold, almost mineral. A deep blue. Clear. Essential. **Stable. Silent.**

Every element follows this logic.

The blue alligator strap — matte or glossy, hand-stitched — extends this restraint. The 39 mm cushion case favors balance, never effect. Inside, the in-house AK10 manufacture caliber, COSC certified, developed in Geneva, serves a single purpose: regularity.

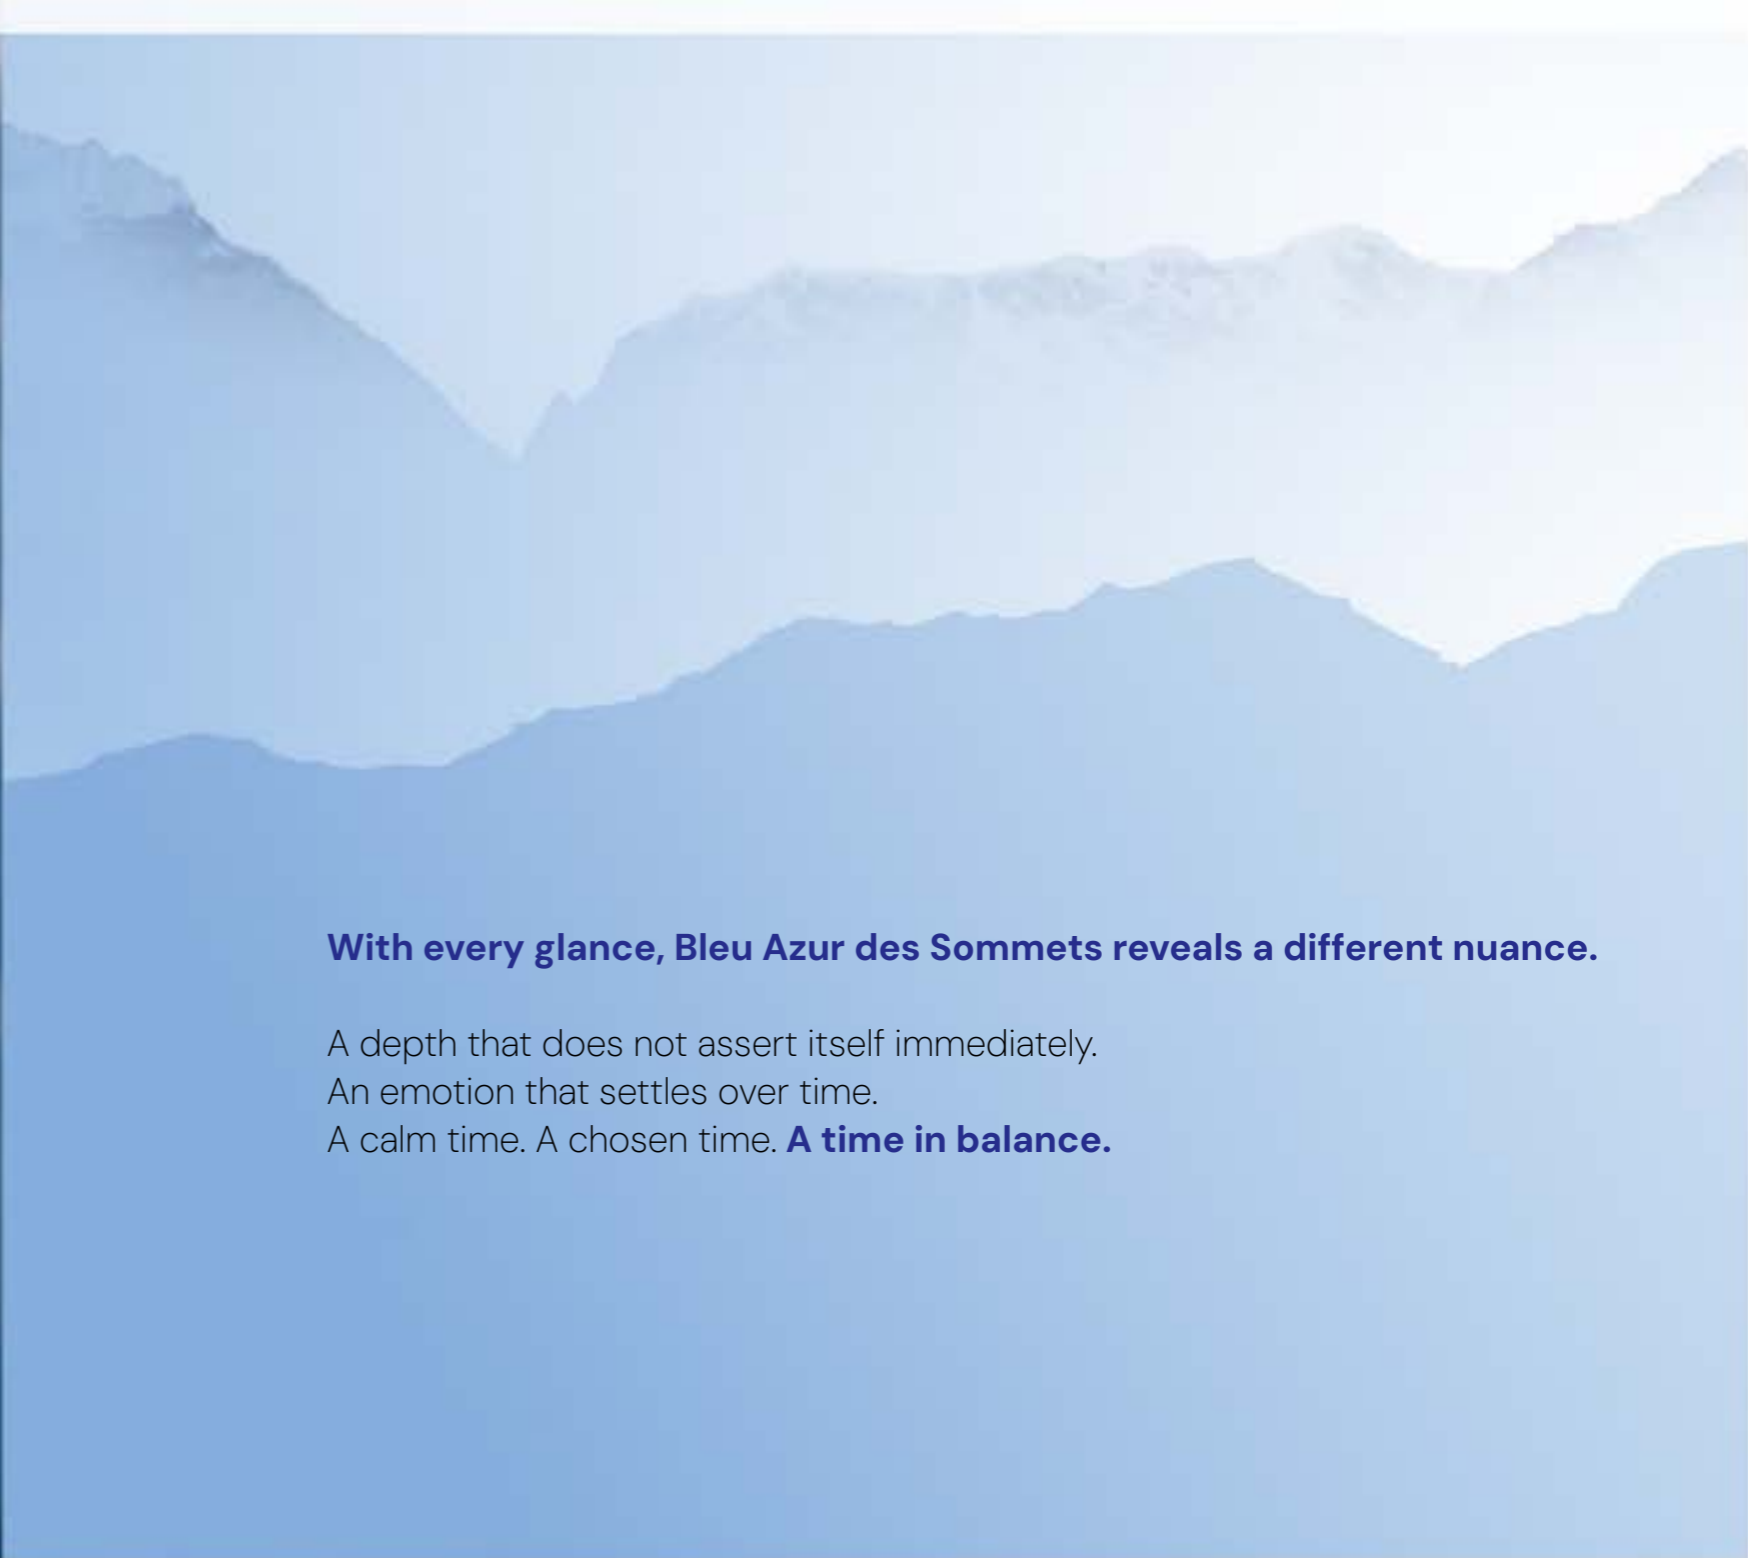

Rooted in Geneva, **AKHOR claims a demanding Swiss watchmaking tradition, without ostentation.**

Hand-finishing — anglage, Côtes de Genève, decorations — is present, but restrained. It supports the piece without seeking attention.

Nothing is added to please. Everything is designed to endure.

With every glance, Bleu Azur des Sommets reveals a different nuance.

A depth that does not assert itself immediately.
An emotion that settles over time.
A calm time. A chosen time. **A time in balance.**

AK-10

Steel Case and Buckle
Bleu Azur des Sommets

Display : hours / minutes (rhodium-plated hands with luminescent tips)
Seconds: rhodium-plated seconds hand with AKHOR logo counterweight
Dial : two-disc construction; patented suspension system of the upper disc
Pattern : sunburst, Bleu Azur des Sommets colour
Case : cushion-shaped steel case, 39 mm — thickness 11 mm
Bezel : polished
